

Carbon Slayer

Carbon Slayer provides superior performance as an immersion solvent cleaner. It is environmentally friendly with a low vapor pressure and high point. Carbon Slayer is highly effective in cleaning a variety of baked-on soils and grease on ferrous metals. It is most effective in removing carbon deposits from steel and cast-iron engine blocks.

Features & Benefits

No VOC	Low environmental impact
“Green” solvents	Low environmental impact
High solvency/detergency	Fast acting; high productivity

Physical Data

Specific gravity	8.94
Solubility in water	Partial
Appearance and odor	Pale yellow, fruity odor
pH (conc.)	2.15

Typical Applications

- Core preparation for remanufacturing of engine blocks, heavy-duty equipment, and transmissions
- Removing rust from cast, ductile, and malleable iron
- Durable goods manufacturing, automotive, and aerospace
- Removing light to heavy rust from fabricated metal parts

Operating Conditions

Use	At 100% concentration
Immersion temperature	150°F (140°F – 160°F)

Waste Disposal

Carbon Slayer solution and rinse water should be discharged to a permitted (state and/or local) waste-water treatment system.
